New Jersey and National Registers of Historic Places

Glossary

COE: A Certification of Eligibility is issued by the New Jersey State Historic Preservation Officer. For properties not already listed on the New Jersey Register of Historic Places, a COE satisfies a prerequisite to apply for funds from the New Jersey Historic Trust, as well as several county preservation funding programs.

DOE: A Determination of Eligibility is issued by the Keeper of the National Register, National Park Service, Department of Interior. It is a formal certification that a property is eligible for registration.

Local Certified Historic District: Although not necessarily listed in the Registers, Local Certified Historic Districts have been recognized by the National Park Service as 1) meeting the criteria for registration, and 2) governed by a state or local statute or ordinance that protects the historic resources of the district.

MPDF: A Multiple Property Documentation Form is the core of a Multiple Property Submission, the format currently used to register groups of properties that are related by historical association or theme, but are not contiguous and need not be nominated all at the same time. A Multiple Property Documentation Form contains the historic contexts, and the background historical, geographical, and architectural information about the group of properties being nominated, and is accompanied by one or more Registration Forms that describe specific properties. Together, the MPDF and its associated Registration Forms comprise a Multiple Property Submission.

MPS: A Multiple Property Submission is the name given to the current format for nominating groups of properties related by historical association or theme, but which are not contiguous and need not be nominated all at the same time. In 1986, this format replaced the previously used Thematic and Multiple Resource Area (TRA/MRA) formats. A MPS consists of a Multiple Property Documentation Form and its associated Registration Forms. In the following lists, properties registered as part of a Multiple Property Submission indicate the name of the MPS of which it was a part.

MRA: Multiple Resource Area refers to a format used in the 1980s to register groups of properties related by historical association or theme. This format was replaced by the MPS in 1986.

NHL: National Historic Landmark refers to a designation by the National Park Service that a property has national significance. Properties designated NHLs are automatically listed in the National Register.

NR: This abbreviation indicates that a property is listed on the National Register of Historic Places.

NR Reference #: This number is provided for properties which have been included in the National Register Information System (NRIS) database, which is available online from the National Park Service.

See Main Entry / Filed Location: An entry followed by this text indicates a property or district that is in more than one county or municipality and refers to the main entry. The main entry provides a list of the additional counties and municipalities in which the property is located ("Also located in") and indicates the filing location at the HPO.

SHPO Opinion: This is an opinion of eligibility issued by the State Historic Preservation Officer. It is in response to a federally funded activity that will have an effect on historic properties not listed on the National Register.

SI&A #: Bridges with SHPO opinions may also have a Structure Inventory and Appraisal Number which indicates bridges that are part of the Federal Bridge Inspection Program.

SR: This abbreviation indicates that a property is listed on the New Jersey Register of Historic Places (State Register).

Thematic Nomination (TRA): Thematic Nominations were prepared for groups of properties all related under a common theme or a single property type. This format was replaced by the MPS in 1986.
